
Harmony Davis

Baton Rouge, Louisiana 70820 • harmonydavis20000@gmail.com

PROFESSIONAL SUMMARY

Computer Science student with professional experience in technical support and software quality assurance. Hands-on experience developing interactive web applications using JavaScript, HTML, CSS, REST APIs, and local storage. Experienced with troubleshooting, software testing, bug reporting, and technical tools in fast-paced environments. Interested in software engineering, web development, and technology.

EDUCATION

Bachelor of Science in Computer Science — Louisiana State University of Alexandria (LSUA) | Expected Fall 2027

Associate of Arts — Baton Rouge Community College | May 2024 | Focus: Fine Arts, Liberal Arts, and English

TECHNICAL PROJECTS

Mushroom Mood Tracker | HTML • CSS • JavaScript • Local Storage

- Developed an interactive web application that allows users to select and save their mood.
- Implemented JavaScript functionality and browser local storage for saving user data.

Catch the Mushroom | HTML • CSS • JavaScript • Game Logic

- Built a browser-based game featuring a moving target, scoring system, and countdown timer.
- Implemented random positioning, game-state logic, and persistent high-score storage.

Cozy Budget Tracker | HTML • CSS • JavaScript • Local Storage

- Developed a budgeting application for tracking income, expenses, transactions, and balance.
- Implemented transaction creation, deletion, calculations, and persistent browser storage.

Mushroom Weather Dashboard | HTML • CSS • JavaScript • REST API

- Built a weather dashboard that retrieves current weather and five-day forecast information from an external API.
- Implemented city search, API requests, weather data processing, and dynamic page updates.

PROFESSIONAL EXPERIENCE

Technical Support Representative — Cox Communications | June 2024 – April 2026

- Provided technical and account support to customers in a high-volume environment.
- Troubleshooted connectivity and account issues, scheduled field technicians, handled billing inquiries, and processed service upgrades.
- Used multiple internal systems to manage customer accounts and document issues and resolutions.

Quality Assurance Tester — Electronic Arts | March 2021 – March 2022; June 2022 – April 2023

- Tested video game software for Apex Legends against design specifications.
- Identified inconsistencies, bugs, and performance issues through systematic testing.
- Reported software defects, assisted with troubleshooting, and provided feedback on stability and user experience.

Senior Care Companion — St. James Place | April 2022 – June 2022

- Provided non-clinical support and companionship to residents and communicated concerns to staff.

Bookseller — Barnes & Noble | August 2019 – March 2021

- Provided customer service, operated point-of-sale systems, handled financial transactions, and organized inventory.
